

View from Jackson Hill

Blitzen Trapper

Window frames the streetlight I can see
Maybe there is no one guiding me
You say you've got time to make some changes
Won't you follow me?

Sometimes I'm imagining your voice
Coming from the kitchen in the evening time
Telling me it's time to make some changes
Won't you follow me?

Headlights on the river as we pass
Embers light the world to make us laugh
Wondering if there's time to make some changes
