

And I am thinking to myself
All that I wanna do
And I am thinking to myself
What I can say to you
And I'm dreaming for myself
Where I would wanna move
But I am feeling for myself
But I am feeling for myself
And no one else

And I am asking to myself
What did I find in you?
And I am asking to myself
Why I just wanted you?
And I am dreaming for myself
Feeling for myself
And no one else

Turn the light down, moving star
With a long kiss, just be yourself
I see you don't want a mate for life
In the archives of your smile
City nightlife, a day at a time
Treating life with not much care
Living music in the air
Living lifestyles with a smile
Living music in the air
Living lifestyles with a smile
With a smile

And I am seeing for myself
The times I wanted you
And I am seeing for myself
This life I chose to choose
And I am dreaming for myself
Yeah, I am feeling for myself
And no one else

Turn the light down, moving star
With a long kiss, just be yourself
I see you don't want a mate for life
In the archives of your smile
City nightlife, a day at a time
Treating life with not much care
Living music in the air
Living lifestyles with a smile
Living music in the air
Living lifestyles with a smile
With a smile
