

## Cautious Lip

Blondie

(All the way down do it  
Another way down  
Why, yeah. What do you know, huh?)  
I seen you skip  
That cautious lip  
Now tell me this  
Through that cautious lip  
You can be bit  
As I make you it  
I seen you skip  
That cautious lip  
A chance you'll fit  
That cautious lip  
It's just these things  
Not really gifts  
It's just these things  
Not really gifts  
I seen you skip  
That cautious lip

I seen you skip  
That cautious lip  
But never miss  
My bouncing hips  
A girl so sweet  
A love so strong  
I seen you skip  
I see you tip  
You can be bit  
As I make you it  
I seen you skip  
That cautious lip  
Ah, I seen you skip  
That cautious lip  
Ah, cautious lip  
Cautious lip  
You can be bit  
I'll make you it  
I seen you skip  
Cautious lip  
Change your fit  
Skip of the lip  
Oh, oh, not really get  
Skip lip

What's going on?  
No way
