

The Attack of the Giant Ants

Blondie

Giant ants from space snuff the human race
Then they eat your face, never leave a trace
La la la la la, la la la la la, la la la la la
They shoot fire all around. Tokyo burns down
Everybody drowns. The moon falls on the ground
La la la la la, la la la la la, la la la la la

They can't be stopped at all. The buildings start to fall
Soldiers shoot all day and then they run away
La la la la la, la la la la la, la la la la la

The world is holocaust. Everything is lost
Mankind is destroyed. Sprinkled in the void
La la la la la, la la la la la, la la la la la

Giant ants from space waste the human race
Then they eat your face, never leave a trace
La la la la la, la la la la la, la la la la la
