

He Wants Me

Blondshell

I sleep so hard when you're around
I like the shape of your nose and the little sound
Whistle
Pivot
Let me put my feet on your skin
It's honored

I'll stick with you
'Cause I like sleeping well
I'll let you go
'Cause I like to be without
Somebody
He's honey
I think I lost my center
But it's just in my body
I want him
He wants me

Your neck is short
But your face is long
You're off the cuff
Got something funny going on
And it works for you

Skillet, egg break
Let me put my hand on your headache
It's honored

I'll stick with you
'Cause I like sleeping well
I'll let you go
'Cause I like to be without
Somebody
He's honey
I think I lost my center
But it's just in my body
I want him
He wants me

I'll stick with you
'Cause I like sleeping well
I'll let you go
'Cause I like to be without
Somebody
He's honey
I think I lost my center
But it's just in my body
I want him
He wants me

I want him
He wants me
I want him
He wants me
