

I'd still kill for you  
I'd die to spend the night at your belonging  
All my friends think that I've lost it  
Up at Olympus, miss your house  
Still sounds like birds and smells like vodka  
You're always off your rocker

I wanna save myself, you're part of my addiction  
I just keep you in the kitchen while I burn

Burn, burn  
Burn, burn

Can't get through winter  
At your house, sweat out the drugs all through the summer  
Let my heart sleep in the gutter (Oh, oh, oh)  
Wish I remember when we kissed but now it's faded  
'Cause I always just replayed it till it left (Oh, oh, oh, oh)

I wanna save myself, you're part of my addiction  
I just keep you in the kitchen while I burn

Burn, burn  
Burn, burn

Baby, wanna erase this  
You're not shameless  
I'm afraid of your description  
That I'm fitting when I'm faded  
I'm alone when I live at your house  
When I slip, I live at your house  
Getting the bends and I'm scared of it now  
Hate myself 'cause I always black out

I wanna save myself, you're part of my addiction  
I just keep you in the kitchen (Oh, oh, oh, oh)

While I burn  
Burn, burn  
While I burn  
Burn, burn  
While I burn  
Burn, burn  
While I burn  
Burn, burn
