

# Sober Together

Blondshell

Out on a high horse  
I've been out late  
I've been smoking record rates  
Not in a position to judge  
But shit is coming up

You've been in the bathroom  
Perfect for an asshole  
I can see your jaw move  
Try to keep it stable

And I get it, I can see right through  
Only because I have the same problem

We got sober together  
But you've been going back  
And I can't blame you, it's in the blood  
Part of the disease is giving up  
Call me, I wanna be there for you  
But not in a way that lets you take me down with you

Fix it with New York  
You hope the habits change  
And the distance takes the pain  
Not in a position to judge  
And I know with drugs there's never enough

I get it, I can see right through  
Only because I know and I f\*cking love you

We got sober together  
But you've been going back  
And I can't blame you, it's in the blood  
Part of the disease is giving up  
Call me, I wanna be there for you  
But not in a way that lets you take me down with you
