

Call Me Master

Blood On The Dance Floor

Tonight our bodies getting intertwined
It's fucking filthy feeding off the blood inside
Dried out veins and no more pain
Let me know the place, now I'll take you away

Tonight we're not gonna hold back
Make way for the freaks giving everybody heart attacks
What you need is just a little discipline
And I got a heavy dose of the right medicine

I'm dominant by definition
I'm turned on by your submission
The dark side is how we've been living
Let me show you what you've been missing, yeah

You, you, you are, you are my slave
My little fucking disaster
I, I, I am, I am your God
Call me, call me, call me your master

Tonight we're a living dead
Lure you to my bed
The happy ending is...
Your flesh under my nails
No more fears, no more tears

You are my murder doll
This is love at first bite
Bind you in the rope tight
What you need is just a little discipline
I got a heavy dose of the right medicine

The dark side is how we've been living
Let me show you what you've been missing, yeah

You, you, you are, you are my slave
My little fucking disaster
I, I, I am, I am your God
Call me, call me, call me your master

I'm dominant by definition
So turned on by your submission
Master of this fucking game
I'll make you wanna scream my name

Take it off, girl
Strip it with no shame
I'm a thirsty animal
That cannot be tamed

Latex, whips and chains
Make me hard and excite me
Come on throw you hands up
And pretend you wanna fight me

I'm dominant by definition
So turned on by your submission

Master of this fucking game
I'll make you wanna scream my name

Take it off, girl
Strip it with no shame
I'm a thirsty animal
That cannot be tamed

Latex, chains and whips
Make me hard and excite me
Come on throw you hands up
And pretend you wanna fight me

You, you, you are, you are my slave
My little fucking disaster
I, I, I am, I am your God
Call me, call me, call me your master
