

# Destroy

## Blood On The Dance Floor

I won't be your slave, your victim in astray  
Be burned by your fire, unleash my desires  
For freedom and conquest to conquer and progress  
I'll rise from my ashes to crash my opponents

Stand and fight, stand and fight  
Take back your life  
Stand and fight, stand and fight  
And know you're right  
[x2]

I'm an angel from the underworld  
I'm a devil from paradise  
I want you as a beast  
And I call up to the sky  
[x2]

I wanted to be the one who sets you free  
Instead I was captured and thrown in your prison  
I'm back to the corner, horizon is dawning  
Add violence to horror and hear my calling

Stand and fight, stand and fight  
Take back your life  
Stand and fight, stand and fight  
And know you're right  
[x2]

I'm an angel from the underworld  
I'm a devil from paradise  
I want you as a beast  
And I call up to the sky  
[x2]

And I've come to destroy  
And I've come to destroy  
And I've come to destroy

Stand and fight, stand and fight  
Take back your life  
Stand and fight, stand and fight  
And know you're right  
[x2]

Stand and fight, stand and fight  
Take back your life  
Stand and fight, stand and fight  
And know you're right  
[x2]

I'm an angel from the underworld  
I'm a devil from paradise  
I want you as a beast  
And I call up to the sky  
[x4]
