

Haunted House

Blood On The Dance Floor

I'm not afraid of monsters
They don't sleep under your bed
I'm more afraid of what we do to each other
They sleep inside your head
We suffer from illusions
Not from vices or weaknesses
We are haunted with senseless delusions
If I stay in good as dead

I'm floating off the ground
Lost don't want to be found
I'm tired of pain and misery
You'll never bring me down
My head is in the clouds
I've silenced demons sounds
I'm boarding up
This haunted house
Say goodbye to this town

Place our memories on the wall
Remember the day we use to joke and laugh
Over time we start to crack, crumble and fall
We use to have it all
All the kings horses
And all of his men
There was nothing we could do
Couldn't put us back together again
I'm left with pieces of you

I'm floating off the ground
Lost don't want to be found
I'm tired of pain and misery
You'll never bring me down
My head is in the clouds
I've silenced demons sounds
I'm boarding up
This haunted house
Say goodbye to this town

I'll let go of the past
Nothing seems to last
I'm never looking back
Our family portraits cracked
Hang like ghost on the wall
Break, crumble and fall
All the kings horses
And his men
Couldn't put us together again
Couldn't put us together again
Couldn't put us together again
All the kings horses
And all of his men
Couldn't put us together again...

I'm floating off the ground
Lost don't want to be found
I'm tired of pain and misery

You'll never bring me down
My head is in the clouds
I've silenced demons sounds
I'm boarding up
This haunted house
Say goodbye to this town
