

# Kawaii Monster

## Blood On The Dance Floor

(It's alive, it's alive...)

I'm the beauty to the beast  
I slip inside the sheets  
Tear it up, rip it up, I'ma monster (ha ha)  
First I'm sour then I'm sweet  
Never trick, I only treat  
How cool do I gotta be before your heart will miss a beat?  
To the day and to the night  
Monsters shine in the moonlight  
So shallow, six feet deep  
You're the cutest when you sleep  
Squeeze you tight, leave you speechless  
Nighty-night, rest in pieces  
Say you love me for my brain?  
Funny, I can say the same...

Talk nerdy to me  
I am a weapon of mass consumption  
Got it locked on tight for destruction

Mochi, mochi, see you more like Yoshi  
Double face smiley, that's my emoji  
I am so high I can eat desert  
Can't bring me down, living large like a monster

I wanna make you scream  
I wanna play in your blood  
Let me kiss you sweet  
So I can rip out your tongue  
I wanna hold you tight  
I wanna steal your breath  
Not gonna let you go, not gonna let you go  
[x2]

Keep it deadly, bitches love me  
Not sure if you'll hurt or hug me  
Kiss and kill me, run away  
Fight me like a [?]  
Fear me, love me all the same  
Quiet little monster far from tame  
All the guts, glitter and fame  
[x2]

Serial killer love to spoon  
Cold black stare will make you swoon  
Get you hard like I'm Medusa  
Razor sharp, whoa you used to  
Now I'm dripping, full of slime  
Your nightmare is my good time  
Play with me like Bride of Chucky  
If you wake up, you are lucky  
A doll likes to have some fun  
Kiss you, kill you, then I'm done  
Let's party like it's Halloween  
The living dead for murder queen  
Sexy set like Dracula

Smile when I'm attacking ya  
Bring you flowers, if you behave  
I will place them on your grave...

Talk nerdy to me  
I am a weapon of mass consumption  
Got it locked on tight for destruction

All is fair in war and peace  
I feel alive when you're deceased  
So fucked up, my friends are dead  
Yell it loud, "Off with his head!"  
Trace your forms with fingertips  
Stick my claws into your hips  
Keep my blood thirst under cover  
With this pillow I will smother

I wanna make you scream  
I wanna play in your blood  
Let me kiss you sweet  
So I can rip out your tongue  
I wanna hold you tight  
I wanna steal your breath  
Not gonna let you go, not gonna let you go  
[x2]

Keep it deadly, bitches love me  
Not sure if you'll hurt or hug me  
Kiss and kill me, run away  
Fight me like a [?]  
Fear me, love me all the same  
Quiet little monster far from tame  
All the guts, glitter and fame
