

## Libertine

### Blood On The Dance Floor

You grow like the evergreen  
You set me free to die  
And I'll swing all around  
Till I fall to the ground  
The government is full of shit  
They spread their lies  
But wait, I fall apart  
But wait, fall apart

Watch me bleed  
Dream obscene  
I was touched by your screen dream  
Watch me bleed  
Dream obscene  
I was touched by your screen dream

We're free  
We're free  
We're free  
We're free

You fall like the forest trees  
You're living out a lie  
If I could have my way I'd sit and watch you die  
Locked and there's no escape  
Don't even bother to try  
But wait, I fall apart  
Wait, fall apart

Watch me bleed  
Dream obscene  
I was touched by your screen dream  
Watch me bleed  
Dream obscene  
I was touched by your screen dream

We're free  
We're free  
We're free  
We're free
