

Mess Like Me

Blood On The Dance Floor

Oh this hell we created
Now we can't escape it
So broken in love into your
How can we be so jaded

I'm without you now
Gotta say goodbye
Surround myself with the things
That keep you off my mind

We tried over and over
To start again
Just to have our happy little world
Come crashing in

It toppled down right on top of me
I'm trapped where I can't breathe
It didn't go as we planned it
I'll never understand it
How do you love a mess like me

Oh this hell we created
Now we can't escape it
So broken in love into your
How can we be so jaded

I'm without you now
Gotta say goodbye
Surround myself with the things
That keep you off my mind

We tried it over and over
To start again
Just to have our happy little world
Come crashing in

It toppled down right on top of me
I'm trapped where I can't breathe
It didn't go as we planned it
I'll never understand it
How do you love a mess like me

How do you love a mess like me?
How do you love a mess like me?
How do you love a mess like me?
How do you love a mess like me?
