

Ringleader

Blood On The Dance Floor

Is this a circus
Or a carnival
Are you human
Or animal

Round and round we go
Like a carousel
This tunnel of love
Became the gates of hell

Step right up
Just to see
The main attraction
You won't believe
Are you ready
Are you ready
Come on
Step right up
Brace yourselves for the girl that can't love
Can you believe it
Can you believe it
I believe it
Can you believe it
Can you believe it

Woah
You really think you're the ringleader
Like you run the show
Woah
Up there beneath the spotlight
Like you have control
Well I got news for you baby
There's only one leader
And it's never been you
You really think you're the ringleader
Like you run the show

We're walking the tight rope
While eating fire
If you say you're honest
Well then the truth is a liar

Step right up
Just to see
The main attraction
You won't believe
Are you ready
Are you ready
Come on
Step right up
Brace yourselves for the girl that can't love
Can you believe it

Woah
You really think you're the ringleader
Like you run the show
Woah

Up there beneath the spotlight
Like you have control
Well I got news for you baby
There's only one leader
And it's never been you
You really think you're the ringleader
Like you run the show

You wanted the grand finale
Under the big top
You fail epically
Fell off your trapeze
With no net to stop
I'd say I could catch you
but I'd rather see you drop

Woah
You really think you're the ringleader
Like you run the show
Woah
Up there beneath the spotlight
Like you have control
Well I got news for you baby
There's only one leader
And it's never been you
You really think you're the ringleader
Like you run the show
