Scissors

Blood On The Dance Floor

Tear down the world
I'd do anything for your love
We come together as one

We will destroy whatever comes between us
Nothing will get in our way
We will destroy whatever comes between us
Nothing will get in our way

You and I are like a pair of scissors
We will destroy whatever comes between us
We are knives alone
Sharp, deadly and cold
Safer and better when we unite together

All is fair in love and war
When it's us I'm fighting for
All is fair in love and war
When it's you I'm fighting for

We will destroy whatever comes between us
Nothing will get in our way
We will destroy whatever comes between us
Nothing will get in our way

(It's you I'm fighting for)
Sharp and cold
Deadly when together
Dangerous to hold
This is forever

(It's you I'm fighting for)
Sharp and cold
Deadly when together
Dangerous to hold
This is forever

Twice as vicious as a knife
You cut once and I'll cut twice
Twice as vicious as a knife
You cut once and I'll cut twice!

It's you I'm fighting for!

We will destroy whatever comes between us
Nothing will get in our way
We will destroy whatever comes between us
Nothing will get in our way

You and I are like a pair of scissors
We will destroy whatever comes between us
