

## Sick Sad World (Bonus Track)

### Blood On The Dance Floor

The poor  
The broken  
The abused  
And it's spoken  
The American dream has turned into a nightmare  
The system is broken and unfair  
The rich get richer from the blood of the working class  
Let a poor family starve just to feed your greedy ass  
People get sick, can't afford to get well  
Betrayed by a nation who promised us to help  
Homeless begging in the street, children dying everywhere  
Scared to take a breath of all this toxic air  
It's a sick sad world woah-oh-oh  
It's a sick sad world woah-oh-oh  
It's a sick sad world woah-oh-oh  
Don't worry pretty baby 'cause we're gonna live and die this way  
It's a sick sad world, our future is so bright  
It's a red lit room, it's never-ending night  
My knees are bleeding, this sick sad world  
Screaming helplessly and being ignored  
There's nothing but suffering  
There's nothing welcome, dear  
There's no sun and no white sky  
No hate without fear  
Haven't lost a way home  
No making it out alive  
A black hole, this fucking world, a wasteland where no one survives  
It's a sick sad world woah-oh-oh  
It's a sick sad world woah-oh-oh  
It's a sick sad world woah-oh-oh  
Don't worry pretty baby 'cause we're gonna live and die this way  
"Hi, my name is Cory. It's a sick sad world that every day  
countless people are judged based on their position in society  
their orientation, their race, and their religion.  
And are convinced that they are not important enough to be in this world  
It's sad that many have to harm themselves just to feel a sense of relief"  
"My name is Kassy. And it's a sick sad world because we let the color of  
someones skin determine if they really are beautiful or not, regardless of t  
heir personality"  
"It's a sick sad world when people care more about money more than other hum  
an beings"  
"Hi, my name is Tara, and it's a sick sad world when your mom doesn't accept  
you for who you are"  
It's a sick sad world because someone has to end their  
life because of bullies,  
who have nothing better to make life hell on a daily basis  
It's a sick sad world because kids like me are bullied physically and mental  
ly every day to the point where they want to commit suicide  
It's a sick sad world because we are not all treated equal, if you do not fi  
t in with today's society, you are brought down and walked all overfor being  
nothing more than yourself  
Hi my name is Rachel, it's a sick sad world when people think it's funny or  
cool to talk about self harm and the people who are on the brink of suicide  
when they have no idea how much they are struggling to get by in the society  
we are living in today  
Hey, it's a sick sad world because people by their sex, and then treated dif  
ferently. Well, who's to say what's normal?

Hi, I'm Kayla, and it's a sick sad world, when we have to live up to societal expectations  
"I'm Tanner, and, and I feel, I feel as that though  
That it's a sick sad world because  
People with disabilities do not get the understanding that they should  
From strangers
