

The Loving Dead (Includes bonus track Love Sucks!)

Blood On The Dance Floor

[Intro: JayyVon]

Love
Forever
True
Love
Forever
True
Why?!
Why?!

[Verse 1: Dahvie Vanity & JayyVon]

I'd climb the highest mountain
Even in the dark
I'd swim the deepest ocean
To get to where you are
This sky will hold no limits
No ground will catch my fall
I will be your dark prince waiting
At your monster ball

[Chorus: Dahvie Vanity]

We are, we are
The loving dead
We love, we love
Even in death
We are, we are
The loving dead
We love, we love
Even in death

[Verse 2: JayyVon & Dahvie Vanity]

Till death do we part
Well baby I'm dead
So let me get this straight
So I'm not mislead
Tell me I'm disposable
Like I'm just any other
But it appears to me
I'm still good enough
To be your lover
Is it really sad
That I love you more in death?
Is that why Romeo had killed Juliet?
It's getting hard to breathe
With this knife in my back
It's buried six feet
Like the love that we have
I will never let you go
Even in death
I'll love you so
Time may have passed but I won't go
Forever is all
I want to know

[Chorus: Dahvie Vanity]

We are, we are
The loving dead

We love, we love
Even in death
We are, we are
The loving dead
We love, we love
Even in death

[Bridge: Dahvie Vanity]
From the night we come
To the night we go
Cursed or blessed
To walk the moonlight alone
Sometimes another soul
Walks our path
Then two become one
In love everlasting
In love everlasting
It's lasting!
I will never let you go
Even in death
I love you so
Time may have passed but I won't go
Forever is all
I want to know

[Chorus: Dahvie Vanity]
We are, we are
The loving dead
We love, we love
Even in death
We are, we are
The loving dead
We love, we love
Even in death
We are, we are
The loving dead
We love, we love
Even in death
We are, we are
The loving dead
We love, we love
Even in death

Part 2 - Love Sucks

[Verse 1: JayyVon & Dahvie Vanity]
You used to hold me
Tight all night long
You used to tell me
You'd never leave me alone
You used to kiss me
On my lips
I never felt like this
Now you stay out
All night and sleep all day
You're never with me
It's like you've gone away
You've got something
On your bloody lips
To say

[Chorus: Dahvie Vanity & JayyVon]
I can see

The writings on the wall
I won't beg
And I won't crawl
I hope you feel
Like you're two feet tall
Love sucks (Love sucks)
It really sucks
I can see
The writings on the wall
I won't beg
And I won't crawl
I hope you feel
Like you're two feet tall
Love sucks (Love sucks)
It really sucks

[Verse 2: JayyVon & Dahvie Vanity]

I see you're hanging
Out with different guys
But you know this
Comes as no surprise
You asked me for
One last kiss
Under the lunar eclipse
I turned you down
With a stiff ass no
I pushed you away
But you just wouldn't go
So wipe away
Those vampire tears
And make yourself
Disappear!

[Chorus: Dahvie Vanity & JayyVon]

I can see
The writings on the wall
I won't beg
And I won't crawl
I hope you feel
Like you're two feet tall
Love sucks (Love sucks)
It really sucks
I can see
The writings on the wall
I won't beg
And I won't crawl
I hope you feel
Like you're two feet tall
Love sucks (Love sucks)
It really sucks

[Bridge: JayyVon & Dahvie Vanity]

I just want you
Gone away
I just want you
Gone away (Life sucker)

[Chorus: Dahvie Vanity & JayyVon]

I can see
The writings on the wall
I won't beg
And I won't crawl
I hope you feel

Like you're two feet tall
Love sucks (Love sucks)
It really sucks
I can see
The writings on the wall
I won't beg
And I won't crawl
I hope you feel
Like you're two feet tall
Love sucks (Love sucks)
It really sucks

[Outro: JayyVon]
You used to hold me
Tight all night long
You used to tell me
You'd never leave me alone
You used to kiss me
On my lips
I never felt like this...
