

The Loving Dead

Blood On The Dance Floor

Love forever true
Love forever true
WHY?!
WHY?!

I'd climb the highest mountain,
Even in the dark
I'd swim the deepest ocean
To get to where you are
This sky will hold no limits
No ground will catch my fall
I will be your dark prince waiting
At your monster ball

We are, we are the loving dead
We love, we love even in death
We are, we are the loving dead
We love, we love even in death

Till death do we part
Well baby I'm dead
So let me get this straight
So I'm not mislead

Tell me I'm disposable
Like I'm just any other
But it appears to me
I'm still good enough
To be your lover

Is it really sad
That I love you more in death?
Is that why Romeo had killed Juliet?

It's getting hard to breathe
With this knife in my back
It's buried six feet
Like the love that we have

I will never let you go
Even in death I'll love you so
Time may have passed but I won't go
Forever is all I want to know

We are, we are the loving dead
We love, we love even in death
We are, we are the loving dead
We love, we love even in death

From the night we come
To the night we go
Cursed or blessed
To walk the moonlight alone
Sometimes another soul walks our path
Then two become one, in love everlasting
In love everlasting
It's lasting!

I will never let you go
Even in death, I love you so
Time may have passed but I won't go
Forever is all I want to know

We are, we are the loving dead
We love, we love even in death
We are, we are the loving dead
We love, we love even in death

We are, we are the loving dead
We love, we love even in death
We are, we are the loving dead
We love, we love even in death
