

## The Ocean & the Moon

### Blood On The Dance Floor

Fell down to Earth  
That was the start of my curse  
For better or for worse  
I was the ocean, you were the Moon  
The reason why I'm drawn to you  
Your gravity pulls me through  
I promise you when this life ends  
I will find you in the next  
Our love is infinite  
It's everlasting  
I promise you when this life ends  
I will find you in the next  
If I was the ocean, you were the Moon  
I'd still be pulled to you  
Sailing across the stormy sea  
You were the lighthouse guiding me  
Away from misery  
When she kissed me  
Storms rushed beneath my skin  
For I am the ocean and she's my Moon  
I promise you when this life ends  
I will find you in the next  
Our love is infinite  
It's everlasting  
I promise you when this life ends  
I will find you in the next  
If I was the ocean, you were the Moon  
I'd still be pulled to you  
For I am the ocean she is the Moon  
The reason why I'm drawn to you  
Your gravity pulls me through  
Your gravity pulls me through  
For I am the ocean she is the Moon  
The reason why I'm drawn to you  
Your gravity pulls me through  
Your gravity  
I promise you when this life ends  
I will find you in the next  
Our love is infinite  
It's everlasting  
I promise you when this life ends  
I will find you in the next  
If I was the ocean, you were the Moon  
I'd still be pulled to you
