

Vengeance

Blood On The Dance Floor

I hope you suffer slowly
So you feel what I have felt
My heart has grown cold as winter
Crave your blood for my vengeance

Eye for an eye
Tooth for a tooth
Give me your lies, I'll give you the truth
And after everything you put me through
I should have done those things to you

Let me paint a crimson canvas of hypnotic beauty
Bloody retribution like a thriller from a movie
This is payback from the way back, my revenge is endless
Ain't no mercy, I'm relentless when I seek my vengeance

Eyes set to kill, be my final thrill
Blood is on the dance floor
Blood is on the dance floor
Time stood still, your blood I will spill
Blood is on the dance floor
Blood is on the dance floor

I gave my heart to the cruel
Until there was nothing left
And from the hollow grew my rage
Dug myself outta my grave

Kill or be killed, it's blood for blood
I'm left for dead and I'm seeing red
And after everything you put me through
I should have done those things to you

Let me paint a crimson canvas of hypnotic beauty
Bloody retribution like a thriller from a movie
This is payback from the way back, my revenge is endless
Ain't no mercy, I'm relentless when I seek my vengeance

Eyes set to kill, be my final thrill
Blood is on the dance floor
Blood is on the dance floor
Time stood still, your blood I will spill
Blood is on the dance floor
Blood is on the dance floor

Sometimes we have to die so we can feel alive
Sometimes we have to break to free what's locked inside
Sometimes we have to die so we can feel alive
Sometimes we have to break to free what's locked inside

Let me paint a crimson canvas of hypnotic beauty
Bloody retribution like a thriller from a movie
This is payback from the way back, my revenge is endless
Ain't no mercy, I'm relentless when I seek my vengeance

You've resurrected the beast, feel the fire ragin' inside
Time to shed your tears for all the wolves that you cried

Ain't no mercy, I am thirsty when I seek my revenge
Crave your blood in defeat, your soul is mine to keep

Eyes set to kill, be my final thrill
Blood is on the dance floor
Blood is on the dance floor
Time stood still, your blood I will spill
Blood is on the dance floor
Blood is on the dance floor

Sometimes we have to die
Sometimes we have to break
Sometimes we have to die
Sometimes we have to break

(Ain't no mercy, I'm relentless when I seek my vengeance)
