### Blood On The Dance Floor

I see those hips rolling like the rims on a Bugatti  
Sweat dripping from her lips, to her tits onto her body  
And I heard she has a man, she still wants to get  
naughty  
She told me I was her type, and I told that b\*tch to  
call me

I don't want to hit and quit it  
But I'd like if you spit and sit it  
Maybe lean back, watch you rub that ass  
Maybe let a real man hit it

Watch her ride that pole with no plans of helping to  
stop it  
I see the look in her eyes, I can see that she wants it

X times 3, we're getting undressed  
Bodies against me, and it's getting wet  
X times 3, move with me  
I don't want your love, just your body

Can you feel it on the edge of your seat  
Can you feel it, just lose yourself to the beat

I wanna see your hands, I wanna see you dance  
Put your hands on me, come dance with me  
Now drop that ass, and drop that beat  
Now what I gotta do to get you home with me  
I don't care boy or girl, just want you in my mouth  
please sir  
Hello Mr. Right now, I'm holdin' it down like

If dancing is for movement, then I am the creator  
I shake my ass, I bring it back, I don't f\*ck with the  
haters  
And if you leave me satisfied, I'll add you to the list  
If you talk shit, I'll make your lips deep throat my  
fist

Can you feel it, on the edge of your seat  
Can you feel it, just lose yourself to the beat  
Can you feel it, on the edge of your seat  
Can you feel it, just lose yourself to the beat

X times 3, we're getting undressed  
Bodies against me, and it's getting wet  
X times 3, move with me  
I don't want your love, just your body

Can you feel it on the edge of your seat  
Can you feel it, just lose yourself to the beat

Do you wanna play with me, I will show you ecstasy  
Do you wanna play with me, I will be your anybody

X times 3, we're getting undressed  
Bodies against me, and it's getting wet

X times 3, move with me  
I don't want your love, just your body

Can you feel it on the edge of your seat  
Can you feel it, just lose yourself to the beat  
Can you feel it on the edge of your seat  
Can you feel it, just lose yourself to the beat

Ain't no bang like our bass cause you know we're gonna  
rock  
Ain't no hype like our party cause our party never  
stops  
Ain't no bang like our bass cause you know we're gonna
