

Hollywood

Blood, Sweat & Tears

I play the clavinet
My friend play bass
Mister we'll play you a song
We got a million of them
We're going some place
Mister won't you help us along

Oh Hollywood, Hollywood some paradise
At least we have been starving in style
Oh Hollywood, Hollywood some bad advise
I guess we going to be here a while

I had a girl one time
But she went home
She didn't take to L.A
I got my music at night
I'm not alone
Can't let nothing stand in my way

Oh Hollywood, Hollywood some paradise
At least we have been starving in style
Oh Hollywood, Hollywood some bad advise
I guess we going to be here a while

I come from something else
I come from Rio
I come from Pittsburg PA
Mr. I'm begging please make me a deal
People say you make it that way

Oh Hollywood, Hollywood some paradise
At least we have been starving in style
Oh Hollywood, Hollywood some bad advise
I guess we going to be here a while

Hooray for Hollywood
Hooray for Hollywood

Hooray for Hollywood

Paradise, bad advice
At least we have been starving in style
Paradise, bad advice
I guess we going to be here a while
Hooray for Hollywood
Paradise, I guess we going to be here a while
