

I Can't Move No Mountains

Blood, Sweat & Tears

Can't stop the rain or keep the night from falling
Sometimes I just don't hear you when you're calling
I'm not a one man band, can't write no songs about you
Can't even tell you I'd be lost without you
But I can do things that will keep you smiling
Keep your face warm baby, make you feel like flying
Without to have trying

I can't move no mountain
No I never said I could
I can't make you love me
But I'll make you feel so good
Or I could now

Can't cool the sun or make a rock give water
Sometimes I treat you like a rich man's daughter
But I can make your heart pound with desire
Make wonder, baby, how I keep the fire
Taking you higher

I can't move no mountain
No I never said I could
I can't make you love me
But I'll make you feel so good

I can't move no mountain
I can't move no mountain
