

## Nuclear Blues

Blood, Sweat & Tears

What you think this world is coming to  
What you think the man is going to do?  
I got the nothing I can do about it  
Paranoia nuclear blues  
Mustang Sally got no place to drive,  
Tambourine Man got no place to hide  
I got to the talking to myself about it  
Premonition nuclear blues  
People all around me singing  
Yeah Yeah yeah  
All night long there dancin'  
Yeah Yeah yeah  
Leaving myself outside  
That's a crazy song you're Dancing to  
Unless your Voodoo, what can you do?  
No one talks and listens to you  
I got these no one gives a damn about it  
Demolition nuclear blues  
People all around me singing  
Yeah Yeah yeah  
All night long there dancin'  
Yeah Yeah yeah  
Leaving myself and me and my friends are dying  
No no  
That's a crazy song you're Dancing to  
Unless your Voodoo What can you do?  
What you think this world is coming to  
What you think that the man is going to do  
I got these no one gives a damn about it  
demolition nuclear blues  
I got the blues  
I got the blues y'all  
Yes I got the blues  
It scares me to death  
Chinese syndrome  
Can't sleep at night no no  
I got the blues  
I got the blues all night  
I got the blues at night  
I got the blues all night long
