

Putrefying Corpse

Bloodbath

A funeral for the soul
Driven to the wall
With lucid cries remaining tethered
A feasting for the dogs

As the lord of all darkness
Is stepping forth
Liberation now can never return
To a putrefying corpse

A funeral, all consumed
Cast into the fire
A vicious mind finds ways to die
For those willing to expire

As the lord of all darkness
Is stepping forth
Liberation now can never return
To a putrefying corpse

Freedom crawls
Deprivation's rebirth
Draining blood
A devastation that befalls us

Fearing the dawn
The wretched demise
Damning the dead to the depths of Hell
Tearing at gore
The order divine
Severing flesh for the hounds of Hell

With no signal in their dying eyes
Disembodied from the mutilation
Kingdoms burning as the master dies
Building evil from a new foundation

For oblivion
For death
Dark days will now descend
The end, the end
