

Kill or Be Killed

Bloodbound

Lay down your arms, kneel and surrender
For kill or be killed is my game
No need to fight
Only the gods can give mercy to someone like you

For the price of a bite is the sinners delight
And the pain to endure on the cross
And the vice of the right my believers enlighten
Is the cure of the realm
Set them free

When the time is right and the soldier is gone
We deny our sins under oath
While the giant sleeps and the rats carry on
We defy it's kill or be killed

Show me your hands over your head now
And kneel to the darkness within
Stand up and shout
No one can hear you but we will remember your name

For the price of a bite is the sinners delight
And the pain to endure on the cross
And the vice of the right my believers enlighten
Is the cure of the realm
Set them free

When the time is right and the soldier is gone
We deny our sins under oath
While the giant sleeps and the rats carry on
We defy it's kill or be killed

When the time is right and the soldier is gone
We deny our sins under oath
While the giant sleeps and the rats carry on
We defy it's kill or be killed

When the time is right and the soldier is gone
We deny our sins under oath
While the giant sleeps and the rats carry on
We defy it's kill or be killed

When the time is right and the soldier is gone
We deny our sins under oath
While the giant sleeps and the rats carry on
We defy it's kill or be killed
