

Bread Alone

Bloodgood

We don't live by bread alone
But, by every word You say
Lost and found
That lovely sound
Is showing us the way

You know the world will tell you, "Satisfy yourself"
The most important thing, is you and no one else
And everything you own and all that you consume
Will not be able to keep you from the tomb

I want to testify and need to tell the truth
And as the years go by I'm further from my youth
And that's just fine with me
These lines are living proof

We don't live by bread alone!

We don't live by bread alone
But by every word You say
Lost and found
That lovely sound
It's showing us the way

We don't live by bread alone
But by every word You say
Lost and found
That lovely sound
It's showing us the way

Fill me up with every thought of You
So we can reach the world
And...TESTIFY tell the TRUTH
As years go by from my youth
Fine with me, living proof, living proof

Every word from the mouth of God
Lord I know You are alive in me
And I'm alive in You

We don't live by bread alone
But by every word You say
Lost and found
That lovely sound
It's showing us the way

We don't live by bread alone
But by every word You say
Lost and found
That lovely sound
It's showing us the way

We don't live by bread alone
But by every word You say
Lost and found
That lovely sound
It's showing us the way
