

Closer Together

Bloodstone

Oh, yeah
Oh, yeah
Love is what we need

What would the world be like if we didn't have love?
How would the flowers grow with out the rain from above?
Mother Nature shows the love by making the flowers grow
So let's show some love, maybe we can grow closer together
Closer together
Closer together
Closer together

The color of my skin shouldn't really mean a thing
There is yellow and white-gold but still they all called the same
If I had my way I'd wish upon a star
I'd wish love upon this world before hate goes too far
Closer together
Closer together
Closer together
Closer together
Oh, yeah

What would the world be like if we didn't have love?
How would the flowers grow with out the rain from above?
Mother Nature shows the love by making the flowers grow
So let's show some love, maybe we can grow closer together
I wanna be closer to you, you wanna be closer to me
Closer together
I wanna be closer to you, you wanna be close to me
Closer together
I wanna be closer to you, you wanna be closer to me
Closer together
I wanna be closer to you, you wanna be close to me

I wanna be
Close to you
And you ought to be
You ought to be, you should want to be
Close to me

It's so wonderful
To know that God up above
Loves us one and all

Oh, yeah
Love is what we need

Oh, yeah
I wanna be closer to you, you wanna be closer to me
I wanna be closer to you, you wanna be close to me
I wanna be closer to you, you wanna be closer to me
I wanna be closer to you, you wanna be close to me
I wanna be closer to you, you wanna be closer to me
I wanna be closer to you, you wanna be close to me
I wanna be closer to you, you wanna be closer to me
I wanna be closer to you, you wanna be close to me
