

# Werewolf in a Girl's Dormitory

## Bloodsucking Zombies from Outer Space

It's a pleasure for you too, isn't it teacher?

\*children laugh\*

One, two, three, four

There's a werewolf in the girl's dormitory

A man-beast blood-thirsty and horny

This wolf comes through the [?]

To take her life and her virginity

No one really can explain

Why this girl has a crush on a monster man

[Bridge]

In the night when the moon shines bright

She can't wait for him to arrive

And when you're asleep

Half a beast and half a man

[Chorus]

There's a ghoul in school

A lycantrophic paramour

The ghoul in school

Desire makes him moan and groan

A demon lover with Spanx and claws

There's a ghoul in school

In savage lust he screams for more

The scratches on her neck explain

What happens when you love in vain

She spreads her legs so perfect wide

She needs to feel his beast inside

But when dusk turns into dawn

It's time for him to move on

[Bridge]

In the night when the moon shines bright

Lie awake, you still can hear him cry

Cuz there's a broken heart, he's weeping [?]

[Chorus]

There's a ghoul in school

A lycantrophic paramour

The ghoul in school

Desire makes him moan and groan

A demon lover with Spanx and claws

There's a ghoul in school

In savage lust he screams for more

More, more, more

Wawoooooooooooooooooooo!

[Chorus]

There's a ghoul in school

A lycantrophic paramour

A ghoul in school

Desire makes him moan and groan

A demon lover with Spanx and claws

There's a ghoul in school

In savage lust he screams for more

A ghoul in school

There's a werewolf

A ghoul in school

There's a werewolf

A ghoul in school

A f\*cking werewolf

A ghoul in school  
A werewolf
