

Come From

Bloody Civilian

Tell me where you're from, from, from
You can tell me where you're from
From, from, from
Tell me where you're from, from, from
Tell me where you're from
From, from, from
Tell me where you're from, from, from
Tell me where you're from
From, from, from
Where do I belong?
Tell me where you're from, from, from
From, from, from

I come from a place where the
Grass is green, where the
Sky is purple
Codeine
Don't have to find drugs
That's the thing
Drugs will find you, ah
Affecting me, defectively
Essentially, I
I try to be the best in me, ah
But I can see it's chasing me
And the politics discouraging, oh

I am going to be
Sitting in the top and shining so bright
I am going to be, ah

I come from a place
I come from a place
I come from a place, I come

I come from a place
I come from a place
I come from a place, I come

I come from a place
I come from a place
I come from a place, I come
Yeah

I come from a place where they
Used to chill
Under the stars, it was quite the thing
But everybody locked up
Because they heard the gunshot
Everybody just run
Nobody wants to go down, down
But I can see it's chasing me
And the politics discouraging, oh

I am going to be
Sitting in the top and shining so bright
I am going to be, ah

I come from a place
I come from a place
I come from a place, I come

I come from a place
I come from a place
I come from a place

I come from a place
I come from a place
I come from a place, I come
Yeah

Tell me where you're from, from, from
You can tell me where you're from
From, from, from
Tell me where you're from, from, from
Tell me where you're from
From, from, from
Tell me where you're from, from, from
Tell me where you're from
From, from, from
Where do I belong?
Tell me where you're from, from, from
From, from, from
