

A Night to Dismember

Bloody Hammers

Been committed to these walls of shame
Misunderstood for far too long
Every passing day they're all the same
Pleased I haven't been alone

So let's escape from here tonight
Be legends by the dawn
A gruesome Saturday, tonight we'll make
A night to dismember
Legally insane, make no mistake
A night to dismember

Before this chaos can further commence
We must break out of these walls
Continue spitting out your thorazine
Time to answer our true calling

So let's escape from here tonight
Be legends by the dawn
A gruesome Saturday, tonight we'll make
A night to dismember
Legally insane, make no mistake
A night to dismember

We'll unleash disaster
With our dull axes and knives
Choose some hapless bastards
And slash away the night
A night to dismember
A night to dismember

A gruesome Saturday, tonight we'll make
A night to dismember
Legally insane, make no mistake
A night to dismember
