

# It's Too Good To Talk About Now

Blossom Dearie

It's I don't know  
It's what you're called  
It's words escape me  
Oh, it's hang it all

It's the kiss that defies every dictionary  
Tell ya this, though  
Whatever it is it's very

So darling say  
It's understood  
That when you kiss this way  
It's knock on wood

It's do it again  
It's the heck with it anyhow  
It's the cat's meow  
And it's too good to talk about now

(guitar solo)

It's I don't know  
It's what you're called  
It's words escape me  
Oh, it's hang it all

It's the kiss that defies every dictionary  
Tell ya this, though  
Whatever it is it's very

So darling say  
It's understood  
That when you kiss this way  
It's knock on wood

It's do it again  
It's the heck with it anyhow  
It's the cat's meow  
And it's too good to talk about  
Wee it's wow  
It's too good to talk about  
Holy cow  
Too good to talk about now

It's the cat's meow  
And it's too good to talk about  
It's wee, it's wow  
It's too good to talk about  
Holy cow  
It's too good to talk about now
