Everything About You

Blossoms

The sky is taking light and you complete me
The dawn is on the rise so discretely
It pains you that I hate myself sometimes

Everything about you
Everything about you
Is rushing up in my heart
Don't you ever wonder?
Don't you ever wonder, is this what life is for?

You made the storm a breeze, am I still empty?
In pure epiphany I watched it heal me
Why won't you tear me up? Get under my skin

Everything about you
Everything about you
Is rushing up in my heart
Don't you ever wonder?
Don't you ever wonder, is this what life is for?

Don't worry you know that you've got someone
Don't worry you know that you've got someone
To deep sea dive into your head
Deep sea dive into your head

Don't worry take love before it's gone
Don't worry take love before it's gone
Deep sea dive into your head
Deep sea dive

Oh, everything about you
Everything about you
Is rushing up in my heart
Don't you ever wonder?
Don't you ever wonder, is this what life is for?

Is this what life is for?
Is this what life is for?
