

Like Gravity

Blossoms

She is calling, she is near
And it draws me like gravity
I am falling, I am here
For any eventuality

We run around this town for days
Now I'm in foolish loving spaces in my mind
I'm surrounded by the ways you seem to
Seduce all thought away and I can't hide

I am healing, we are one
And it brings me to clarity
She is seasons, she is sun
And it calls to my sanity

We run around this town for days
Now I'm in foolish loving spaces in my mind
I'm surrounded by the ways you seem to
Seduce all thought away and I can't hide

We run around this town for days
We run around this town for days
(Foolish loving spaces, I'm in foolish loving spaces in my mind
)
I'm surrounded by the ways you seem to
Seduce all thought away and I can't hide
(Foolish loving spaces, I'm in foolish loving spaces in my mind
)

We run around this town for days
We run around this town for days
(Foolish loving spaces, I'm in foolish loving spaces in my mind
)
I'm surrounded by the ways you seem to
Seduce all thought away and I can't hide
(Foolish loving spaces, I'm in foolish loving spaces in my mind
)
