

## Perfect Me

Blossoms

I've got to smile honestly  
A good night's rest with eight hours sleep  
Look your best with good hygiene  
Keep your teeth nice and clean  
Back yourself but modestly  
Show your friends empathy  
Make more time for family  
Go somewhere you've never been

I've come to my senses  
Life's not easy  
It leaves you guessing  
Just keep breathing  
I've got to be  
The perfect me  
I've got to be  
The perfect me  
I've got to be  
The perfect me  
I've got to be  
The perfect me

To be true and direct  
It's as hard as you'd suspect  
Is that cynicism I detect?  
Or my lyricism I detest?  
Wait, I've three more things to say  
You've got to learn from your mistakes  
Over time you will change  
No one leaves here unscathed

I've come to my senses  
Life's not easy  
It leaves you guessing  
Just keep breathing  
I've got to be  
The perfect me  
I've got to be  
The perfect me  
I've got to be  
The perfect me  
I've got to be  
The perfect me

I get by with my pilot light bright  
I'm my own worst enemy  
Half the time  
Half the time

I've come to my senses  
Life's not easy  
It leaves you guessing  
Just keep breathing  
I've got to be  
The perfect me  
I've got to be  
The perfect me

I've got to be  
The perfect me  
I've got to be  
The perfect me

I've got to be  
The perfect me  
I've got to be  
The perfect me  
I've got to be  
The perfect me  
I've got to be  
The perfect me
