

# Polka Dot Bones

Blossoms

I've got a thing for my Crystal girl  
I wanna taste you on the floor tonight  
Crystal where've you been

I've got a thing for my secret girl  
I wanna taste you so much tonight  
Crystal tell me where've you been

All I feel with you is something in between  
Crystal, Crystal  
You seem to burst and bleed  
With you my love

All my love  
Show me your polka dot world  
You've got bustling bones  
I'm on a restless ride with you

Crystal tell me where've you been  
Approach the spooky hour, edgy girl  
I'm on a quiet quest tonight

Crystal where've you been  
All I feel with you is something in between  
Crystal, Crystal  
You seem to burst and bleed

With you my love  
All my
