

Ghost Dream

Blouse

Black cats always seem to find my path
Is it just the neighbourhood?
Or are they around for good?

Cold air coming from a place out there
Is it just the atmosphere?
Are we not alone in here?

Ghost dreams wandering into my sleep
Do they want to live or die?
Are we in the afterlife?

Tonight, let's sleep in a field of white
Nothing but the sand and sea
Nothing waiting up for me

And my heart beats faster at night
I can't open my eyes
Ghost dream following me
Ghost dream following me

We'll try to trap the moon against the sky
We won't let the dark in here
We won't let the dark come near

And my heart beats faster at night
I can't open my eyes
Ghost dream following me
Ghost dream following me

And my heart beats faster at night
I can't open my eyes
Ghost dream following me
Ghost dream
