

Come On Pauline - Amy's Cassette for Pauline

The Blow

Come on pauline, I've seen you
I've seen you see it through
And I know that you've seen me see it, see it too
Come on pauline

Oh, its the thrill of what you know, you know
Oh, and it's the force behind the gaze you throw, you throw

I swear I've seen you undress the city blocks with your eyes
But she scrawlsthe people all stacked up inside
For their liquid bodies and the bargain basement eyes, eyes

You're cool and observant
You cruise the streets and I've seen
The buildings tremble with the force of your seismic heartbeats

Well if I can stand here and see this pauline
I can stand here and see that you see, you see it too
Stand here and see this pauline I can
Know that the things that I know, I know they're true

Stand here and see this pauline
I can stand here and see that you see, you see it too
Stand here and see this pauline I can
Know that the things that I know, I know they're true

I wouldn't say this to most people
But I know you know the sky's a pool
It drains on with no bottom
It's all deep-end

And I wouldn't say this to most people
But I know you know the sky's a pool
It drains on with no bottom

And the night is so wide
I I-I-I I kinda need ya
