Summer

The Blow

Summer was the name of your lover
She said that it was you but you knew that was all us
She left you in the wind everybody take cover
She's calling like akin but you know that it's over

Summer was the name of your lover
She told you it was good but you knew it was over
You need a little time take a year and recover
You want some on the side call me up I'll be over

I keep calling up your number but there's nobody there
Your like a pinball wizard with your wave in your hair
You keep acting like it's nothing but I know that you care
I saw your heart crack open and it's smell in the air

And the when the heat starts creeping and your hidin inside
I'll be your cool cave baby you could live in my eyes
I don't need to be the only I could be your sometimes
Just leave a small space for me the back of your mind

I know I'm not the one
But I could be two or three just fine
I'd never give you up
You know that I'd never say goodbye

I know I'm not the one
But I could be two or three just fine
I'd never give you up
You know that I'd never say goodbye

I know I'm not the sun
But I could be something in your sky
I'd never burn you up
I know that I'll never make you cry

I keep calling up your number but there's nobody there
Your like a pinball wizard with your wave in your hair
You keep acting like it's nothing but I know that you care
