

# The Girl and the Rifle

Blowsight

Sit down, sit down baby you're gonna fall  
This bloody floor complete the crawl  
Put down that rifle girl  
You broke the code  
You killed it all  
Against the wall  
Self addicted victim sickness tried to please us all

I got shot down shot down  
But I'm not gonna die today  
As I stepped down stepped down  
I'm never gonna be afraid  
Fire's burnin' all for one  
Pop the glock, what's done is done  
Shot down shot down  
No I'm not gonna die today  
I love you, I love you  
Fire's burnin' all for one  
Pop the glock, what's done is done

She frowned, she found bodies on every floor  
Too scared to stop and back for more  
And into the grave we walked

You broke the walls  
Reboot/install  
You take the fall  
Complicated, overrated, tried to please us all

I got shot down shot down  
But I'm not gonna die today  
As I stepped down stepped down  
I'm never gonna be afraid  
Fire's burnin' all for one  
Pop the glock, what's done is done  
Shot down shot down  
No I'm not gonna die today  
I love you, I love you  
Fire's burnin' all for one  
Pop the glock, what's done is done

So you wanted to swim in the pain that she gave you  
Before she was leaving  
The models are one and the same - just paintings with dust the frames

Sho I got shot down shot down  
But I'm not gonna die today  
As I stepped down stepped down  
I'm never gonna be afraid  
Fire's burnin' all for one

I got shot down shot down  
But I'm not gonna die today  
As I stepped down stepped down  
I'm never gonna be afraid  
Fire's burnin' all for one  
Pop the glock, what's done is done

Shot down shot down  
No I'm not gonna die today  
I love you, I love you  
Fire's burnin' all for one  
Pop the glock, what's done is done
