

Shadow Maze

BLP KOSHER

It ain't no other way to go to find you, but behind you
The shadows are gone
I write my thoughts on my skin so they're not just on my mind t
o and it must remind you the shadows are gone
And if I died inside this maze then will they use me to find yo
u
I won't hide you
She knows exactly what she's doing but does she terrify you
I know I do

Bad bitches on my line but I need fewer so imma pass her to my
dawg and let Leandroer
It's like when I get happy I feel guilty for no reason
Like when your lips are chapped smile and you start bleeding, o
ne step closer to that yota you gon fly
Make my ice drop and all you see is red bottom sky
I'm at your door like new neighbors imma bring your ass pie

And if I died inside this maze then will they use me to find yo
u
I won't hide you
She knows exactly what she's doing but does she terrify you
I know I do

Dance on the floor violent gold a midnight ago left in the snow
dances slow by they piano
Like fire flies move it's all inside you

It ain't no other way to go to find you, but behind you
The shadows are gone
I write my thoughts on my skin so they're not just on my mind t
oo and it must remind you the shadows are gone
And if I died inside this maze then will they use me to find yo
u
I won't hide you
She knows exactly what she's doing but does she terrify you
I know I do
