

Trauma Dump

BLP KOSHER

She always swore she wouldn't ever let her guard down
She always swore that she won't ever pour her heart out
And everything we couldn't have is all ours now
Scoop her in the donk, she love it when the car bounce
And shawty so special, we were so happy
'Cause I'm pickin' petals, I want you to have these
And I know that whatever lasted
I'm in a dark place, how could you be so callous?

You the same bitch
You used to trauma dump to me and I'd lend a hand
You the same one I used to talk about to all my dead friends (H
uh)
And they passed
How the Hell could I still be fuckin' around with your ass?
100 bad bitches that I'm never gon back
She licked the blood right off the knife that she just pulled o
ut my back
You done fuck with lots of people but I'm never gon' ask
But I'm never gon' ask
I should've asked you
My dawg died the same day you told me move on
Only time that you respect me, when I prove you wrong
And everything you hated 'bout me, I'm improvin' on
But I don't think that I need you
This bitch done gave me ringworm
I almost took the needle
I'm cuttin' off my lead finger before I buy a ring, ho
I'm burning every piece of clothing that she wore
She's broken all the promises that she swore

She always swore she wouldn't ever let her guard down
She always swore that she won't ever pour her heart out
And everything we couldn't have is all ours now
Scoop her in the donk, she love it when the car bounce
And shawty so special, we were so happy
'Cause I'm pickin' petals, I want you to have these
And I know that whatever lasted
I'm in a dark place, how could you be so callous?
