BLP KOSHER

Fuck how I be getting much, you feel me, I don't gotta explain how it be, wa  
ter

This is what they know (What they know)  
This is what they know (What they know)  
This is what they know 'bout me, woah  
This is what they know (What they know)  
This is what they know (What they know)  
This is what they know 'bout me, woah

They know that I was dangerous, so they went behind my back  
He outside, I'm pulling over, like my fuckin' tire flat  
I call that boy a baby flower, all he do is lie and lack  
They pat me down but I was pourin', stuffed that thang inside my hat  
Yeah, I just bunked his trap, that shit was ass, Port-A-Potty  
Fuck you stripes and all your cred, fuck yo block, that thang karate  
They be asking if I got Za, all I smoke is Nazis  
Really I'm a straight edge, other than that it's just a hobby  
He wan' up it, hypoallergenic (Okay)  
No animal ran it  
Don't you get it twisted with me, he talkin' hypothetic  
Deuce's called that shit pathetic (Oh, yuh)  
I can't believe you said it  
I don't care, 'cause everything I do them boys are gon' respect it  
They think I'm pulling up roots the way I killed the beat  
Cougar bitch and evil auntie, James and the giant peach  
I can't get too comfortable, that lazy river not for me  
The devil on my shoulder, I don't repeat, sound like a parakeet  
And bitch I like to crank, for all the times they called me useless  
A hundred on the highway, pushin' fast, then it's boozness  
That's a Space Administration, how we move, I parachute shit  
And what's inside my sauce, I'm turning red, Massachusetts  
How I be coming out with all them racks, but it ain't gon' work for the musi  
c  
Fuck that everybody they gon' say he look problem without solution  
And I refuse to be a scapegoat, so don't you go accusing  
Every picture that they tried to paint about me want the truest  
I know they wanna disagree, but they be sayin' I'm a student  
When I get rich I'm tryna feed the poor and help the youth  
He only out the nac cause he done came with his lil' group  
I told 'em everything we did, he watered down, that boy dillute  
A-and I'll pull up where you stay, but I ain't here to scoop  
I'm in her reproductive system, trying not to reproduce  
Gather 'round, cause we got lots of sticks like we play pool  
Today a Green Day, (Water) we got the drums like we Tré Cool
