I Love You

Blu Cantrell

We live in a world where reality
Depresses all emotions that live inside of me
Life can be so cruel but you make it easier
You picked me up when I was down
And now my feet's on solid ground

You can never tell someone too much
that you love them
You can never know when you go
That's why you tell them baby
You tell him that you love him

Baby how much can I tell you
That I love love love you
Baby how much can I tell you
That I love love love you

After all that we'd been through
I never thought I found someone who'd
Make me feel so good
I thank God for blessing me
For the opportunity
To be around someone like you
If everyone was like you
The world would be a better place yea

You can never tell someone too much
that you love them
You can never know when you go
That's why you tell them baby
You tell him that you love him

Baby how much can I tell you
That I love love love you
Baby how much can I tell you
That I love love love you

Baby we need to be strong
We'll keep love alive,
that's why I sing this song
For you
I'm gonna tell the world
I love you
