SOS

Blu Cantrell

Felt like I was drowning, you weren't there
You had my heart, but it wasn't where he was supposed to be
I loved you hopelessly, why did you fold on me?
When I was your girl, and you were my man
I stuck by your side, when no one was there
All the way to the end, never need be
But instead, feels like you left me for dead
What you said with your mouth, you didn't show in your actions
And foolishly I believed it
And now I'm the one that's got to deal with the let down and broken promises
that you made to me

Chorus:
This an SOS, over, tell me where you at
This an SOS, over, tell me where you at
I've been searching all over, never did find you
(Never did find you)
This an SOS, over, tell me where you at
This an SOS, over, tell me where you at
This an SOS, over, tell me where you at
I've been searching all over, never did find you
This an SOS, over, tell me where you at
This an SOS, over, tell me where you at
Where you at? Tell me where you at
Where you at? Tell me where you at
Where you at? Tell me where you at

You took control, I wasn't myself
Had to look in the mirror to find my help
No one's gonna love me more than I do
Despite all the Wain, I found my way through
See I'm gon' be happy, yeah I'm gonna smile
I was so confused for a while
So here we go, it's 'bout the time
I'm moving on, on with my life

Chorus:
This an SOS, over, tell me where you at
This an SOS, over, tell me where you at
I've been searching all over, never did find you
(Never did find you)
This an SOS, over, tell me where you at
This an SOS, over, tell me where you at
This an SOS, over, tell me where you at
I've been searching all over, never did find you
This an SOS, over, tell me where you at

I know that I can think about yesterday and all the pain you caused
And I will find my true love and I will move on from all this heart ache

Chorus:
This an SOS, over, tell me where you at
(Where were you at?)
This an SOS, over, tell me where you at
I've been searching all over, never did find you
(Never find a girl like me)
This an SOS, over, tell me where you at

This an SOS, over, tell me where you at
This an SOS, over, tell me where you at
I’ve been searching all over, never did find you
This an SOS, over, tell me where you at
Where you at?
