

The One

Blu Cantrell

I've been looking for a man
To stay here till the end
He will not just be my lover
He'll be my best friend
He will always be a guiding force in my life
Then he'll hold me tight

He will never leave me standing
In the pouring rain
He will never disrespect me
Call me out my name
He will never have me waiting
Till the morning comes
I will always be his baby
When it's said and done

'Cause he'll be the one
'Cause he'll be the one
'Cause he'll be the one
'Cause he'll be the one

He will always be the one
To wipe away my tears
He will always be the one
To kiss away my fears
He will always be there
Making everything alright
Be the one to always love me
No more lonely nights

He will never leave me standing
In the pouring rain
He will never disrespect me
Call me out my name
He will never have me waiting
Till the morning comes
I will always be his baby
When it's said and done
