

# Elevator

Blu DeTiger

I go up, go down  
I go up, go down

Ow  
Seriously ow  
Samurai sword  
To the chest right now  
I got glitter in my teardrops  
Kisses on the ground  
Yeah you're talking my ear off  
Bringing me down

Try reading my lips  
I don't want you I don't need you  
I'm pressing the switch  
On the rooftop I need two shots  
And then four, five and then six  
I'll check you off of my list  
And it sounds something like this

I go up, go down in my elevator  
Don't wanna talk right now  
See you alligator  
Load me up in a sling shot  
Send me over the moon  
Baby I can be a big shot  
Too, too, too

I go up, go down in my elevator  
I let the boom go bang hit the detonator  
Load me up in a sling shot  
Send me over the moon  
Baby I can be big shot  
Too woo, woo, woo

Ooh take out the drama  
Call your mama  
Call it karma  
I don't wanna dance with you  
Road to nirvana  
Don't need no one here in my ela-ela elevator

Try reading my lips  
I don't want you I don't need you  
I'm pressing the switch  
On the rooftop I need two shots  
And then four, five and then six  
I'll check you off of my list  
And it sounds something like this

I go up, go down in my elevator  
Don't wanna talk right now  
See you alligator  
Load me up in a sling shot  
Send me over the moon  
Baby I can be a big shot  
Too, too, too

I go up, go down in my elevator  
I let the boom go bang hit the detonator  
Load me up in a sling shot  
Send me over the moon  
Baby I can be a big shot  
Too, too, too, too
