Light myself on fire just to please
Doing all these things it's just to fit your needs
And I can't stop, I can't miss a beat
Like a feedback loop I'm running on repeat

I'm always on, can't take a break
Wake up early, running late
Here tomorrow, gone today
There's gotta be a better way

Tell myself that it's alright
And I'll give this another try
Here in the morning, gone tonight
Don't you dare put up a fight

Enough for you
Enough for you
Enough for you
I'll never be enough for you
Enough for you
Enough for you
I'll never be enough for you
Enough for you
Enough for you
I think I've had enough of you
Enough of you
Enough of you

And I don't wanna let this go
I put on a smiling face, it's just for show
The more you learn the less you know
Give me space, I need room to grow

I'm always on, can't take a break
Wake up early, running late
Here tomorrow, gone today
There's gotta be a better way

Tell myself that it's alright
And I'll give this another try
Here in the morning, gone tonight
Don't you dare put up a fight

Enough for you
Enough for you
Enough for you
I'll never be enough for you
Enough for you
Enough for you
I'll never be enough for you
Enough for you
Enough for you
I think I've had enough of you
Enough of you
Enough of you
