

# Latency

Blu DeTiger

I went on a detour, so long  
Baby two-seater, solo  
I was out late  
Trouble on the way

I'm craving the thrills, yeah, I wanna know  
Set me free in the wrecking zone  
I blow 'em all away  
Fever on the brain

Tripping on latency  
Hazy with the gasoline  
Too heady for a Monday  
Shou-out  
People think I'm in love  
I've never been dumb enough  
Too lazy for a Sunday  
Shou-out

Give a silent shout in the atrium  
Hear it bounce back from the stadium  
Give it a shake  
It's all the same

Flippin' through my magazine  
Seeing every face staring back at me  
Gotta get away  
Fever on the brain

Tripping on latency  
Hazy with the gasoline  
Too heady for a Monday  
Shou-out  
People think I'm in love  
I've never been dumb enough  
Too lazy for a Sunday  
Shou-out
