

# Lipstick

Blu DeTiger

I left you a lipstick stain on your T-shirt, you better think of me  
Didn't wanna leave this city but I got-got-gotta run away  
There's something that I wanna say  
But I'm leaving town today  
So I just left my lipstick stain on your T-shirt  
You better think of me  
(You better think of me)

One night imma see you again  
Watching the skyline, feeling sick in the head  
Somebody take my phone so I can leave you on read  
But I don't wanna go to sleep if you're not here in my bed

Something's wrong  
All my days go slowly  
Count a million faces  
Baby, I'm still lonely

I left you a lipstick stain on your T-shirt, you better think of me  
Didn't wanna leave this city but I got-got-gotta run away  
There's something that I wanna say  
But I'm leaving town today  
So I just left my lipstick stain on your T-shirt  
You better think of me  
(Better think of me)

(2, 3, 4)  
Window shopping on the east side of town  
I would see you on the corner always checking me out  
I start to freak I start to worry, we've been too long without  
Are you forgetting how to pick me out of every crowd?

So many miles from home, I'll call you in the morning  
Hope you're by your phone  
I know it's kinda corny  
You're my favorite song, all about you

I left you a lipstick stain on your T-shirt, you better think of me  
Didn't wanna leave this city but I got-got-gotta run away  
There's something that I wanna say  
But I'm leaving town today  
So I just left my lipstick stain on your T-shirt  
You better think of me  
You better think of me  
You better think of me
